

Outdoor Classroom Garden Mini-Grant Program

Grant Criteria Information
and Application Form

AITC Garden Grant

The Outdoor Classroom Garden Mini-Grant Program is designed to show that agriculture is an integral part of our everyday environment. Farms, wildlife, forestry, people and cities are all interrelated with agriculture. As most of Arkansas' wildlife resides on and feeds off of private property, including farms and timberlands, the gardens can demonstrate the connection between agriculture, food, fiber, conservation, wildlife and the urban environment.

Criteria for Schools, FFA Chapters, and 4-H Clubs

- A minimum of 100 students for average daily attendance
- Garden must be located on or adjacent to the school site
- A farmer volunteer, preferably a county Farm Bureau board member, must also serve as a project advisor.
- Teacher involvement is mandatory, and parental involvement is recommended
- The gardens must contain agriculture crops such as corn, wheat, rice, soybeans, etc. and/or vegetables and fruits. Livestock projects are also acceptable.
- This funding may not be used for flower gardens, butterfly gardens or nature trails.
- A report on the garden must be submitted, including pictures and/or video, at the end of the project, growing season, or school year

General Information

- There is no deadline for grant applications. Applications are accepted as long as funding is available.
- These are matching funds grants, and applications must include matching funds.
- Up to \$500 will be awarded for new gardens, and up to \$250 will be awarded for on-going garden projects.
- Matching funds may include monetary donations from outside organizations and businesses, school funds, and in-kind donations such as material, labor, equipment, etc.
