## Ag Literacy Project Order Form

## SALE!!

The main goal of any Ag-in-the-Classroom program is to increase agricultural awareness among the students in school. One easy way to accomplish this is through a reading program that introduces agricultural themes using books at their grade level. These books are made available at cost to the county Farm Bureau to purchase and use in their own local program.

### Ag Literacy Order Form

Email completed form to:  
Cindy Robertson - Ag In The Classroom
